DETAILED ACTION

The appeal brief filed on 02 May 2006 has been entered. The appeal brief has been considered and dismissed by the Examiner.

Allowable Subject Matter

1. Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record neither shows nor suggest a tension mask frame comprised of, in part, a detensioning member fixed along one of the outer and inner peripheral surfaces of one of the pair of opposing long sides and the pair of opposing short sides having a second coefficient of thermal expansion, along with the rest of the limitations of the claim.

Regarding independent claim 4, the prior art of record neither shows nor suggest a tension mask frame comprised of, in part, a detensioning members fixed along the peripheral surfaces of the sides and having a second coefficient of thermal expansion, wherein the second coefficient of thermal expansion of the detensioning members is one of greater than the first coefficient of thermal expansion and lower than the first coefficient of thermal expansion, along with the rest of the limitations of the claims.

Regarding independent claim 9, the prior art of record neither shows nor suggest a tension mask frame comprised of, in part, a detensioning member being fixed along a peripheral surface of at least one of the sides, the detensioning member having a

coefficient of thermal expansion which is different from the coefficient of thermal expansion of the frame, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-3, 5-8, and 10-13 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
